# The Annual Administration Report of the Sayla State.

## FOR THE YEAR 1909-10 A. D.

LIBRARY OF THE ROYAL ASIATIC SOCIETY BOMBAY BRANCH

## CHAPTER I.

**General and Political.**—The area of this State is 221·1 square miles. Population is 11,661 according to the last census. The gross revenue of the State ( based on average of past five years ) amounts to Rs 84,022-8-8. The tribute to be paid to the British Government amounts to Rs 15,001 in addition to a sum of Rs 510 to be paid to the Junagadh State as Zortalbi.

*The tribute payable by this State is the heaviest of all the other similar States of Kathiawar. The tabular statement of the States with their revenues and tributes is given at pages 206 of the K. L. Directory part I. On a reference to it, it will be seen that this State has to pay 24 per cent out of its revenues while some of the other States have to pay 2 per cent only. This State has been much embarrased on account of such a heavy and unbearable burden of tribute. It is now high time to invoke the sense of mercy from the authorities, who it is hnmbly hoped will attribute all the considerations due to a loyal Chief whose means are hardly sufficient to meet such heavy tribute consistently with his honour and position.*

The present ruler Thakore Shree Vakhatsingji Kesarisingji is a Jhalla Rajput by caste aged 65 years. The Government has been pleased to bestow upon him the title of the Thakore Saheb as a personal distinction. The Thakore Saheb has six sons of whom the eldest Kumar Shree Madarsingji is the Heir-apparent. The Youngest K. S. Bhawsingji died 2 years ago. The remaining four cadets have been employed in different services. The Thakore Saheb has intermarried with the families of Jadejas, Chudasamas and Waghelas.

The Political Agent, Jhalawad Prant paid a flying visit at Sayla in March last. The eldest Kumar of the Heir-apparent is studying in the Raj Kumar College Rajkot, while the other grand sons af the Thakore Saheb are studying in the Wadhwan T. G. School, all other male and female members of the family are given education here by special teachers.

The Heir-apparent makes frequent visits in almost all the villages of the Districts and carefully looks after the condition of the people as well as the cattle. The results of such visits have been proved most useful and beneficial in the interests of the State. Some of the waste land has been brought to cultivation by such touring.

The acting Karbhari K. S. Kaliansingji left the office of the Karbhari in June 1909 and has been succeeded by Mr. Narsidas Nathubhai Vohra. The services of Mr. Narsidas have been proved of much importance in almost every branch of the administration. He has placed before us several schemes of reforms which are under our consideration. K. S. Kaliansingji worked with satisfaction during his tenure of office. K. S. Devisingji who is the Superintendent of Police manages the police affairs very diligently and cleverly.

## CHAPTER II.

**Administration of the Land**—No land settlements are introduced in this State in a regular form till now on account of the prevalence of Bhag Batai system. Of course some of the cultivators pay Udhad ( a lump sum ) instead of giving share in kind. They have no complaint against the rates of the Udhad which in reality have improved their condition. We intend to make a regular survey and classifications in some of our villages but before doing so we are considering whether it can be done without undergoing the expenses of a regular survey. Nearly 296 acres of waste land was taken up for cultivation in the year under report. There was no any boundary dispute of much importance. The question of some change of boundary pillars with the Muli villages has been settled already while the similar question with Sudamda village will be settled in this year. The Tagavi advances amounting to Rs 650–12–11 have been given to the cultivators in the year under report.

The revenue department is managed by the Heir-apparent K. S. Madarsingji in consultation with the Chief Karbhari. K. S. Madarsingji has acquired comprehensive knowledge in this branch and the facilities given by him to the cultivators to obtain bullocks have greatly improved the condition of the State. He has a special liking of cattle breeding and induces the cultivators to follow his example by holding cattle shows at different places on different occasions and by distributing valuable prizes to the best breeders. In short the Heir-apparent deserves great credit for his valuable assistance in the affairs of the State.

# CHAPTER III.

This Court was hitherto been presided over by one of the officials of the State but as no appeal is allowed against the decisions of this Court it has been recently amalgamated with the Court of the Chief Karbhari in the interests of the public. The Huzur Court has got the revisional powers in the matters decided by this Court.

Appendix XI shows results of applications for execution of decrees in the Sayla State during the year under report.

Appendix XII. shows that the opening balance of appeals in civil suits in Sayla State was none and no new appeal was filed during the year under report.

**Extradition.**—Outside demand on this State was 2. The demand by this State amounted to none. There is some want of reciprocity on the part of some of the neighbouring States in this respect.

**Prisons.**—There are two prisons in this State. One at Sayla and the other at Sara.

Appendix XIII shows that there were 4 prisoners at the end of the last year. 12 prisoners were admitted during the year under report in Sayla Jail and 3 in Sara Jail. General health of the prisoners was good. There was no mortality amongst convicts in Jail. One of the prisoners named Mangla escaped by breaking the wall of the Jail.

**Registration.**—Appendix XIV shows ragistration of documents in Sayla State. The number of documents presented for registration amounted to 14 of the aggregate value of Rs. 4886 which all were registered.

Appendix XV shows the receipts and expenditure on account of registration during the year under report. This year the fees realized amouuted to Rs. 51 against Rs. 104 last year. This work is done by the Chief Karbhari's Court so the extra expenditure is not incurred on this head.

## CHAPTER IV.

(*a*) The total rain-fall measured during the year under report amounted to 22 Inches, 3 cents compared with 19 inches, 71 cents in the previous year, as shown in Appendix XVII. Of these 57 cents fell in the fair season this year. The agtar (early)

and Pachhtar (latter) crops proved successful on account of timely and good rain-fall.

(*b*) The condition of the labouring classes is improving. There is great demand for unskilled labour. Labourers are very dear for ordinary work too. Appendix XVIII shows the prices of food grains which are nearly the same as those of the last year.

(*c*) **Forest**—There is no forest in this State of any great importance. Babul tree plantation is looked after but the growth is not thriving; the land and climate not being genial they are not properly grown up. However there are big grass Vids in the State which besides supplying the consumption of grass to the State give an extra revenue also. The Vid of Chorvira is very extensive and the poor people earn their livelihood by selling the gum which is being produced from it. There is a lake called Chandrelia under Chorvira where the poor people dig out bid (a kind of food) from the ground and live upon it when necessary in the time of scarcity.

(*d*) **Trade and Manufacture.**—The chief articles of export are cotton and *tal* (seasamum). The former is exported to Wadhwan Camp, Bhavnagar and Bombay while the latter in the different parts of the province. Cloth, rice, sugar are the articles of import from Bombay. Sarasia oil is imported from Gujarat. While cocoanut, bettle nut &c. are imported from Dholera. Cloth of Khadi is manufactured by local weavers of Sayla and there are nearly 100 handlooms in working order in Sayla. Khadi cloth is dyed in a very good way by the dyers here together with other cloth made of cotton. Excellent wood work lathe turned and simple such as boxes, pataras and various other articles of nice workmanship are made in Sayla and exported. There are several quarries in the State from which stones for building purposes are dug out and are sent to Wadhwan Camp and Morvi Railway and supply the local demand.

(*e*) **Public works.**—The portion of the trunk road lying within the limits of this State and the made roads between Sayla and Muli upto the boundary of this State and between Sayla and new garden are kept in repairs and the expenses on this head and such other matters amounted to Rs 421-4-7½ this year.

(*f*) **Post office.**—There is one post office with combined telegraph office in Sayla. There is a post office in Sara ( a mahal of this State ) too.

(*g*) This State has no mint of its own.

(*h*) General condition of State and people.—The condition of the State is improving. This year we had sufficient and timely rain-fall and the supply of water in wells for irrigation was also sufficient.

The same may be said as regards the condition of the Bhayats and Mulgirassias. The condition of merchants and traders such as money lenders, cotten and cloth merchants and dealers in grain is progressing along with that of the other subjects.

The Heir-apparent Kumar Shri Madarsingji has started cattle farms in different villages of the State. Bullocks are supplied to the cultivators at a very reasonable price and to repay it small instalments are made. The condition of the cultivating classes is by degrees improving and the gap caused amongst cattle by the terrible famine of Chhapania is nearly filled up.

Moreover he gives cows from his cattle farms to the shepherds and rabarees on the same condition as above and in this way he tries his best to make the subjects earn their livelihood. Besides looking to the expenses he has to incur in these accounts and the small profit he derives therefrom it is apparent that he has deep feeling and sympathy for the welfare of the subjects.

He knows very well the merits and demerits of the cattle and can appreciate good breeding. It may also be noted here that the Heir-apparent has opened a poor house since the terrible famine of Chhapania where the orphans, deaf, dumb and such other feeble inmates are fed and clothed properly.

The Heir-apparent goes in the districts nnd personally picks up such helpless inmates. He deserves great credit for such of his charitable feelings.

Public health was good throughout the year under report.

Prices of food grains have remained much higher throughout the year. Agricultural stock in good condition and fodder sufficient. The condition of the cattle is good and slight attack of kinder pest had broken out at Sara in the latter part of the year, but on account of the timely help

of the Vaterinary department Bombay for inocculating the cattle with anti kinderpest serum at the request of the Political Agent and the Agent to the Governor no loss has been sustained amongat cattle. On the whole the number of cattle in the year is nearly the same as that of the last year as shown in Appendix XX.

## CHAPTER V.

**Revenue and finance**—The total receipt for the year under report amounted to Rs. 103000 as against Rs. 88000 last year. This shows an increase of Rs. 15000 which is owing to the timely rain-fall. This State has a debt of Government loan Rs. 92300-7-5 and that of Government guaranteed loan Rs. 95458-8-10 and that of local fund loan Rs. 10088-4-4. This State tries its best to repay these loans as possibly as it can but cannot do so on account of the *heavy burden of Government tribute.*

## CHAPTER VI.

There is a charitable dispensary in Sayla, called the "Vakhatsingji Dispensary" with organized staff and supply of proper medicines. This institution treated 2208 patients at an annual cost of Rs. 1129-6-3 as shown in Appendix XXIII. The Medical Officer Mr. Jijibhai Pachanji performs his duties very satisfactorily. 473 persons were vaccinated by different vaccinators during the year as compared with 469 persons last year.

Appendix XXIV shows the number of births 255 and deaths 197 as against 239 births and 144 deaths past year. The police are strictly ordered to keep accurate register of births and deaths. No extra expenditure is incurred on this head.

**Plague.**—Sayla State was quite free from plague during the year under report.

## CHAPTER VII.

The number of schools in this State is as follows.—*Viz.* four boys' schools and one girls' school wherein 281 boys and 44 girls receive education. The instruction is imparted to them upto the seventh standard. The total cost on this head is Rs. 1941-13-8. The Thakore Saheb and the Heir-apparent visit the school occasionally and distribute sweetmeats &c. to the boys and girls as an encouragement.

## CHAPTER VIII.

The conservancy establishment of Sayla consists of one Karkun and a peon and the work is done by the local paid Bhangis. Expenses on this head come to Rs. 230-2-10. Contributions and donations made to the public institutions in Kathiawar by this State amounted to Rs 266-13-0.

No stallion is kept by the State but there is the best Katty stallion in Lala Bhagat's place by which the mares from the State and from the districts are covered. There is no small Arab pony or horse that can be let loose among the mares of private individuals for the improvement of breed.

Members of the Sayla house have natural liking for horse flourish in which they understand and take lively interest to improve the breed when. ever practicable.

### Conclusion.

It is with pleasure and satisfaction that the undersigned has to note that during the year under report the Heir apparent Kumarshri Madarsingji as the head of Revenue Department as well as Mr. Narsidas as acting Karbhari and Kumar Shri Devisingji as Police Superintendent and other officers of the State high and low have performed their duties with zeal and assiduity. The Police have tried their best to check and detect crimes and preserve the general tranquility of the State for which they deserve great credit.

# The Annual Administration Report of the Sayla State.

## FOR THE YEAR 1911-12.

LIBRARY OF THE ROYAL ASIATIC SOCIETY

## CHAPTER I.

### General and Political.

The area of the State is 221-1 square miles. The population of the State according to the last census is 12851 souls, showing an increase of 1190 souls in comparison to that of A. D. 1901. Although this increase is not very great yet looking to the fact that the decade had begun with the dire famine of samvat 1956 with the plague in its train, this state has not been the looser. The gain is made in the districts they being solely and strictly under the supervision and fostering care of the Heir-apparent the credit of the increase is exclusively his.

The gross revenue of the state as calculated on an average of past five years in 1909-10 amounted to Rs 84022-8-8, in 1910-11 amounted to Rs 89495-1-8½ and in the year under report amounted to Rs 111724-4-6.

This increase is mainly due to the good harvest and to the high prices of cotton which ruled in the year under report. This State pays a very heavy tribute of Rs 15001 to the British Government and Rs 510 to Junagadh as Jortalbi in addition to the Government tribute.

The tabular statement of the States with their revenues and tributes is given at page 206 of the Kathiawar Local Directory Part I. A reference to it will show that the state has to pay 24 p. c. on its revenue when many others have to pay 2 p. c. only. Thus the tribute payable to the British Government being abnormally high & out of proportions in comparison to the revenues and other means of the state, it embarasses the state very much. The burden being very heavy and unbearable we hope the benign Government will be pleased to extend their mercy in making a perpetual reduction of the tribute payable by this state which is always loyal to the British Power. They will kindly come to see that our means are scarcely sufficient to meet such heavy tributes and numerous other calls both civil and political.

134980

The present Chief Thakore Saheb Shree Vakhatsingji Kesharisingji is a Jhala Rajput aged 67. He has been conferred a personal distinction of Thakore Saheb by the Government many years ago. He has five sons of whom the eldest Kumar Shree Madarsingji is the Heir-apparent. Of the remaining four three have been engaged in different services. K. S. Kailiansingji and K S. Devisingji are employed in this State and K. S. Vijaysingji is employed in the Agency Service as a manager.

The Thakore Saheb and Kumars have married from Jadejas, Chudasamas, Gohels and Vaghelas, while the princesses of the family have been given to Jadejas, Solankees, Sisodias and other Rajputs of high renown.

## Events of Note.

The State had been paid two visits by the Pol. Agent Jhalawad Prant when he was well pleased with what he saw. He had been kind enough to visit the Coronation Cattle Camp to which he heartily renders his help with unusual mercy towards the dumb useful creatures.

The eldest Kumar of the Heir-apparent having left the Rajkumar College last year went on tour in parts of Central and Northern India in Company of his father and Kumar Shree Merubha who all had the good chance of visiting ths Sacred Shrine of Budarinarayan, which is on one of the highest peaks of the Himalaya Mountain.

Above all these the most prominant event of note is the manner how this State observed the ceremonies on the unique and most Solemn occasion of the Coronation of their Imperial Majesties the King Emperor George V and Queen Empress Marry at Delhi. From the 2nd December 1911 which was the auspicious day of safe arrival at Bombay of their Majesties the King Emperor and Queen. Empress., to the 12th December, the Golden day on which the Grand Imperial Durbar at Delhi was held and on whlch the Royal Proclamation was read over by the King Emperor in person to all assembled, this State observed many ceremonies of rejoicings in all the towns and villages large and small with due pomp befitting the occasion. The celebrations were of such a nature as to impress the everlasting memory of the auspicious occasion in the hearts of all the inhabitants of this State rich and poor, young and old. We heartily pray for the health, long life and prosperity of the Imperial Pair.

## Education in the Chief's Family.

The eldest Kumar Shri Madarsingji has studied in the Rajkumar College at Rajkot and other Kumars have received education at T. G. School

Wadhwan Camp. The eldest Kumar of the Heir apparent having completed his course left the Rajkumar College last year and is now placed under the tution of Sayla Nyayadhish Mr. Nathuram who takes much interest in imparting to him the fundamental principles of equity and justice including those of codified laws and regulations of the British Indian Empire.

The younger of the twin Kumars of the Heir-apparent has already completed his course of the T. G. School, Wadhwan and is now prosecuting his qualifying studies further in the Veterinary College at Bombay where he has passed his first year's examination with credit. The younger two Kumars of the Heir apparent are studying in the T. G. School Wadhwan which is also joined by two other Kumars of K. S. Kalliansingji and Devisingji. The eldest Kumar of K. S. Vijaysingji appeared to pass for the first time the School Final examination which he failed in only one subject namely mathematics. Other male and female children of the family who are of too tender age attend the local schools for their regular school studies with home tution by special teachers under the care of the Chief who entertains much advanced views regarding education.

## The Heir-apparent.

The Heir-apparent K. S. Madarsingji takes immense pains to improve the State & its subjects for which he deserves very great credit. He often goes in circuit in the districts & visits the farmers, is always approachable by them & is ever ready to adopt any measure that is conducive to their well-fare. He gives them plough & milch cattle and other necessaries of life from his cattle farms. He himself has kept regular cattle farms, the product where of is given to farmers on very easy terms and he also promotes good breeding of cattle by farmers by holding local cattle shows in different villages of the State and awarding prizes to those who produce a high quality of home bred cattle in the order of merit.

In the capital he has opened a Ginning Factory and thus he gives much work to the poor and the labouring classes and a similar impulse to the cotton trade of this State. He is at the head of the Revenue and Financial Departments. Every year he brings more and more plots of waste lands under cultivation and then farms them out to cultivators. He turns Ubhadias (labourers) into new farmers on new plots of land by giving them every kind of help from the State to change their life. This year the State has under his supervision completed the revenue survey and classification of the lands of Sayla proper, where to introduce civilized Vighoti system is under contemplation.

He is very energetic and considers his duty as a labour of love. He has a very strong sympathy for the dumb, deaf, blind, destitutes, the aged and the infirm whom he supplies with food, grains, clothes, money and medical assistance in Sayla and in the districts.

In pursuance to the desire of the Thakore Saheb he started a fund which is seconded by the liberal subscriptions from all the members of the Chiefs family, all the well-to do servants of the state, and all its well-to do subjects including Mahomedans even. With the aid of this fund a Cattle Camp at Sayla is opened, which is named the Coronation Cattle Camp with a view that the memory of the unique augustus event of the auspicious Coronation of their Majesties the King Emperor and Queen Empress at Delhi may be ever fresh in the hearts of the poor inhabitants of this state. This Corronation Cattle Camp takes charge of all the starving cattle of the poor inhabitants of this State, who cannot maintain them for want of fodder on account of drought of the last monsoon. At his hearty exertions this fund has obtained a good quota from Karanchi and similar help is expected from other places.

At the energetic exertions of the Heir-apparent about one hundred new wells have been dug out at State help and we have in view to increase the number of new wells when the farmers and the labourers will be found without work.

All his sympathetic exertions of this kind have made him most popular among all the classes of the subjects of this State young and old, rich and poor.

## CHAPTER II.

### Administration.

This is a Third Class State in the Kathiawad Agency. Bhagbatai and and in some places Udhad Vighoti are in force. A regular survey and classification of the lands of Sayla proper is completed under the Superintendence of Mr. Bhaishanker Rewadutta an experienced Officer. We have received the final settlement report from that officer and now we are to see whether the cash assessments will suit us and the cultivators instead of Bhagbatai. Of course it is advised and believed that the introduction of Vighoti system will save the State from a deal of unnecessary trouble and uncertainty and will make the farmers' position more secure and tempting. In this branch of the Administration, the Heir-apparent is the most conspicuous figure, he being the Revenue Head of the State. He has a special

aptitude for this branch and so he has done much good to the State. A note of his work has been taken before and so it is not necessary to say any thing more about his work now.

On account of drought in the last monsoon, we have had to face a famine year again. To keep up the cultivators in their position and to preserve their useful cattle we have given to all the needy cultivators all kinds of help. Upto the end of March we have advanced Rs. 9834–4–1 as Tagavi.

Debts. The State besides paying all the administrative charges had paid Rs. 6829–1–5 in the form of interest on debts which it had contracted in the dire famine of Samvat 1956 and in bad year of Samvat 1958. It has also paid up debts to the amount of Rs. 18556–8–10 as under.

Government loan Rs. 8453–2–10.

Guarranteed loan Rs. 10103–7–10.

Thus it paid up Rs. 25365–12–1 in all as interest and principal.

The receipt of the State in toto amounted to Rs. 146177–11–5 and the year was closed with a balance of Rs. 8999–14–4. In spite of this famine year this State has pulled on with the greatest economy without incurring any new debt upto the end of the year under report.

Laws—The State has the power to make its own laws. It has exercised this power in many instances, while in others it has adopted the British laws with various modifications suitable to the local exigences of the State. When necessary it also follows the spirit of the British laws which are not adopted. The laws in force in this State in the year under report have been shown in Appendix II.

## Criminal Justice.

The State has four Courts of Justice having jurisdiction as mentioned below:—

I. The Hazur Court presided over by the Thakore Saheb. It exercises the powers of first and second appellate Courts and also of the High Court and of the Local Government in all matters.

II. Chief Karbhari's Court presided over by the Karbhari exercising all the powers enjoyed by a Third Class State. It hears appeals against the decisions of First and Second Class Magistrate's Courts.

III. The First Class Magistrate's Court is presided over by a Nyayadhish exercising all the powers of a First Class Magistrate together with the powers of a Committing Magistrate.

IV. The Second Class Magistrate's Court, Sara, is presided over by a Thandar exercising the powers of a Second Class Magistrate.

## Civil Justice.

I. The Hazur Court enjoys the powers of the Appellate and of the High Court.

II. Karbhari's Court has the powers to hear original suits beyond the Jurisdiction of the Nyayadhish and of the Appellate Court in matters decided by the Nyayadhish and the Thandar.

III. Sayla Nyayadhish Court has the powers to hear original suits upto Rs 3000 only, and the small Cause's Courts powers upto 100 Rs for Sayla proper.

IV. Sara Thandar's Court has the power to hear original suits in Sara Mahal upto 500 Rs. only.

Appendix X shows the nature and value of original suits filed and disposed of in various courts during the year under report.

Appendix XI shows the results of applications for execution of decrees in this State during the year.

Appendix XII shows the opening balance of appeals in the Civil Court and the Appeals filed during the year.

## Registration.

Appendix XIV shows the registration of documents in Sayla.

The number of documents presented for registration this year is 9 and the aggregate value of the registered documents amounted to Rs. 8385–0–0.

Appendix XV shows the receipts and expenditure on account of registration. The fees realized amounted to Rs. 86–0–0 as against Rs. 62 of the last year.

## The Police.

This department is placed under the direct superintendence of K. S. Devisingji. He has one Fouzadar and two Tappa Fouzadars under him. The work of preservation of peace and of the detection of Crimes is carried out quite satisfactorily and K. S. Devisingji desrves credit for the same.

Force:—The police force consists of six Mounted police and 18 foot police

with four Camel sowars. In addition there are 212 Passaitas. The Mounted police are armed with rifles and swords, the foot police with rifles and bayonets and the village passaitas with swords and guns.

Cost. The total cost on this head is Rs. 5248–9–8½. The ratio of the police to the population is 48-56 and to the area is ·9. This cost does not include that of the passaitas who hold land on service tenure.

Appendix V shows that 15 offences were reported to the police as against 11 of the last year. The number of accused arrested was 35 and all of them were sent for trial out of which 23 accused persons were sentenced.

Appendix VI shows the value of the stolen property which amounts to Rs. 181–6–0 of which property worth Rs. 20–15–0 was recovered which gives a percentage of 11·54 to the property stolen.

Appendix VII shows that the number of offences committed during the year under report is 88. The number of cases disposed of amounts to 65 and of the persons apprehended is 136 out of which 59 were convicted.

Appendix VIII shows that 85 offences were reported during the year. The number of persons dealt with amounted to 130 of which 69 were discharged and 59 convicted and 2 remained untried at the end of the year. None was either acquitted or committed to the Karbhari's Court.

## Prisons.

There are two prisons in the State one in Sayla, and the other in Sara. The Jail in Sayla is the Central Jail because Sara can only keep prisoners for one month and persons that have to undergo a longer term of imprisonment are brought to Sayla. The Nyayadhish is ex-officio the Jail Superintendent.

Appendix XIII shows that in the beginning of the year the Jail had 4 prisoners in it and 28 were admitted during the year. Out of this number 22 have got their release after undergoing the term of imprisonment and ten remain at the end of the year. The expense of the Jail is ~~Rs~~ 175–9–7½ and the average attendance is 5·13.

The general health of the prisoners was good. There was no mortality amongst convicts in the Jail. One prisoner was released and 3 prisoners were each given one month's remission on account of the joyous occasion of the unique unprecedented Coronation of Their Imperial Majesties King Emperor and Queen Empress at Delhi.

**Extradition**—There was no demand on this State from without while the demands by this State to others outside were 2. There is some want of reciprocity on the part of some of the neighbouring States while this State preserves its reciprocity without any objection.

**Military Force**—None.

## CHAPTER III.

The general condition of the State is although improving under the energetic care and supervision of the Heir-apparent, yet the drought of last monsoon will have a telling effect and retard the further developement for a time. Instalments of debts are regularly paid but this year being a famine year nothing can be paid.

This year we had 4·26 inches of rainfall which being too scanty, water supply for irrigation was proportionately deficient.

The farmers, Bhayats and Mulgirassias have been given Tagavi according to their wants.

As we had a very good harvest in the Samvat year 1967 and cotton fetched high prices, the condition of cultivators and labourers was very much improved. The Banias had also thriven. Upto the end of March we have found no necessity of opening test work even as the limited number of labourers being engaged themselves in preparing irrigated crops by hand labour, it has been found very difficult to find labourers at moderate wages.

**Public Works**—Besides survey operations the State had begun building new offices at an estimated cost of Rs 10000, but owing to a change in the original plan for sufficient accommodation, this building has cost Rs 13601–6–3 upto the end of the last financial year and is still incomplete. This will accommodate all the offices of the State except that of the Superintendent of Police and will add to the beauty of the State mansion. This expense the State has undergone simply because the old building was quite dilapidated and so it had to be pulled down. The Trunk road and the made road to the gardens have all been repaired. The aggregate cost on this head amounted to Rs. 15199–6–6.

**Forests**:—There is no regular forest in the State but there are very big meadows in the State which yield grass for State purposes and also a surplus for nomadic Rabaris and others and thus gives us a good revenue in a good year but on account of drought last monsoon we had a very poor crop of grass, which was not sufficient even for home consumption. Gum is also a

product of the Vids of Chorvira and poor people make an earning out of its sale. In times of scarcity the lakes of Sayla and Chandrelia supply a good field of harvest for the poor because tney produce Bid (a kind of root–food) which is dug out of their beds & then used for food after some process. As this Bid is also used for the nourishment of the cattle, it gives to the poor people an earning out of its sale. The Vids produce fuel sufficient for the State No timber is produced.

**Quarries:**—In the Vids and in the Kharabas there are some quarries in the State which supply a good quantity of a good quality of stones for building purposes. They meet the local demands and the surplus is exported to Wadhwan and is supplied to Morvi Railway.

Trade and Manufacture–Cotton trade has thriven rapidly but this year being a famine one this trade has got a break. Besides this there are nearly 100 hand–looms which produce a good kind of khadi and other clothes, which are dyed here & are exported to other parts after meeting the local demands.

Cotton & Til ( seasamum ) when produced are exported to Wadhwan camp, Bhavnagar and Ahmedabad, Bombay and other parts of India. And cloth, rice, sugar, sursia oil, coconut, betelnut &c. are imported from Bombay, Gujrat, and Dholera.

Sayla produces good tailors & carpenters. Many of them go to Bombay and other places and earn a good living by tailoring of the best description and by lining carriages and furniture. The carpenters produce excellent wood work, lathe turned and simple such as boxes, pataras and house-hold furniture which is exported in good quantity. Trade in cattle is also an important factor.

Prices of food grains have remained higher throughout the year and agricultural stock and fodder are sufficient in face of this famine year. The cattle and farmers were quite healthy during the year under report except some stray attacks of small pox in Sayla whereby no death has been recorded.

## CHAPTER IV.

### Public Institutions.

**Medical Department**—There is one charitable Dispensary in Sayla which is called the Vakhatsingji Dispensary. It is under the charge of Mr. Jijibhai Panchanji, an able and experienced officer of nearly 37 year's stand-

ing, who performs his duties to the entire satisfaction of each and all concerned. The supply of medicines is proper and the staff well equipped. In the year under report 1980 out-door patients were treated at a cost of Rs. 1033–14–4 as shown by Appendix XXIII.

There were some stray cases of small pox but no death has been recorded, it being of a very mild type.

The public heath has remained good throughout the year and the State has remained quite free from the most dreaded epidemic of the Plague.

## Post Offices.

There are two Post Offices in the State. Sayla has one Post and Telegraph Office while Sara has one Post Office only. Brisk traffic in cotton at times requires the merchants and even the State to reach the authorities in this branch who do the needful whenever practicable.

## Schools.

There are 4 boy's schools & one girl's school in the State. Their number & attendance can be seen by a look at the Appendix XXV. The Thakore Saheb & the Heir-apparent visit the schools & distribute sweetmeats occasionally. Sara has been given a change of a commodious building last year for the school instead of one on the city walls.

On 12th December 1911 all the boys & the girls were given a medallian specially prepared for the everlasting memory of the unique unprecedented event of the Coronation of Their Majesties the King Emperor & Queen Empress at Delhi. The girls were made to sing benedictory songs for the Imperial Pair, while the boys were also made to sing the same with an exercise of athletic sports on the Kinder-Garten system. They were all given sweet-meats too.

## Conservancy.

This establishment consists of one Karkun, who also does the work of Jailor, and one peon. Local Bhangis do the sweeping and cleaning work. They are paid by the State. The total expense on this head amounted to Rs 189-9-9. This department is under the direct supervision of the Nyayadhish.

# CHAPTER V.

## The Census.

The work of completing the tabular statements was finished by this de-

partment at Wadhwan Civil Station under the direct superintendence of the Deputy Assistant Pol. Agent, Jhallawar Prant.

The sanads given to the honourary circle superintendents in appreciations of their services were awarded to the recipients at the hands of the Thakore Saheb on the 12th December 1911 when a grand Durbar was held in the State palace with due pomp and ceremonies befitting the occasion to read openly the Royal Proclamation.

## CHAPTER VI.

### Conclusion.

In conclusion the undersigned is exceedingly glad to note with satisfaction that the Heir-apparent Kumar Shree Madarsingji as head of the Revenue Department has given him ~~an~~estimable assistance in the management of the revenue affairs and in the financial functions.

This year the Revenue Department had the unusual burden of the survey Department, which they have smoothly borne and so they also deserve credit. We conclude by noting that all the officers of the State high and low have performed their duties with zeal and assiduity. The Police have tried their best to check and detect crimes and to preserve the general tranquility of the State for which they deserve much credit.

# The Annual Administration Report of the Sayla State.

## FOR THE YEAR 1912-13.

LIBRARY OF THE ROYAL ASIATIC SOCIETY

### CHAPTER I.

### General & Political.

The area of the State is 221-1 square miles. Population is 12,851 according to the last census. The gross revenue of the State ( based on average of past five years ) amounts to Rs 104919-7-2. The tribute to be paid to the British Government amounts to Rs. 15001 in addition to a sum of Rs 510 to be paid to the Junagadh State as Jortalbi.

The tabular statement of the Kathiawar States with their revenues and tributes is given at page 206 of the Kathiawar Local Directory part 1. A reference to it will show that the State has to pay 24 P. C. on its revenues while some of the other States have to pay 2 P. C. only. It will be observed that the tribute payable to the British Govt being abnormally high and out of proportions in comparison to the revenues & other means of the State it embarasses the State very much. The burden being very heavy and unbearable it is humbly hoped that the benign Govt. will be pleased to extend their mercy in making a perpetual reduction of the tribute payable by this State which is always loyal to the British Power.

The present Chief Thakore saheb shree Vakhatsingji Kesarisinhji is a Jhala Rajpute aged 68. He has been conferred a personal distinction of" Thakore Saheb" by the Government many years ago. He has now four sons of whom the eldest Kumar shree Madarsinhji is the Heir apparent. The remaining three have been engagd in different services. K. S. Kalliansinhji and K. S. Devisinhji are employed in this State and K. S. Vijaysingji is employed in the Agency service as a Manager. K. S. Merubha died on the 23rd August 1912 in the flower of his youth. It was a sad calamity on the house.

The Thakore saheb & Kumars have married from Jadejas, Chudasamas, Gohels & Vaghelas while the Kunveries ( daughters ) of the family have

been given to Jadejas, Solankees, Sisodias and other Rajput of High renown.

## Events of Note.

The State had been paid two visits by the Poll. Agent Jhalawad Prant. Major W. M. P. Wood came here in the month of September 1912. where in accordance with his kind & friendly advice the State has amicably settled the long standing dispute of 72 years which was existing between Dhrangadhra & Sayla States about village Chitrodi. Our worthy Agent to the Governor in his able & eloquent speech in the Darbar held on the 17th December 1912 expressed the great satisfactions of Govt. at this amicable settlement of a very old & keenly contested litigation. Our worthy & energetic Political Agent Major Harold paid his visits in the month of February 1913 from Chotila when under his kind & valuable advice the State made an amicable settlement with the widows of late Kumar shree Merubha.

In the year under report marriage ceremonies were performed of the eldest Kumar & second son of the Heir apparent K. S. Madarsinhgji in the month of March when the Thakore saheb of Mansa & other representatives of our brother chiefs & relatives had been to my principality to take part in the festivities.

## Education in the Chief's Family

The eldest K. S. Madarsinhji has studied in the Rajkumar College at Rajkote & other Kumars have received education at Talukdari Girassia School Wadhwan Camp. The eldest Kumar of the heir-apparent having completed his course has left the Rajkumar College in the year 1910–11 is under the tution of Sayla Nyayadhish and acquires fundamental principles of equity & Justice including those of codified laws & regulations of the British empire.

The younger of the twin Kumars of the heir-apparent has now left the veterinary College of Bombay. The younger two Kumars of the heir-apparent & two other Kumars of K. S. Kalliansinhji & Devisinhji are studying in the T. G school Wadhwan & their progress is very satisfactory. Other male & female children of the family who are of very tender age attend the Local schools for their regular studies with home tution by special teachers under the special care of the Thakore saheb who entertains much advanced views regarding education.

## The Heir-apparent.

The Heirapparent K. S. Madarsinghji takes much pains to improve the State & its subjects for which he deserves very great credit. He very often goes in circuit in the district & visits the farmers & other subjects of the State and is ever ready to adopt any measure which is conducive to their well-fare. He gives them plough, milch cattle & other necessaries of life from his own cattle farms and takes very keen interest in promoting good breeding of cattle by farmers.

In the capital i. e. in Sayla proper he has opened a Ginning Factory which gives much work to the poor and labouring classes & the cotton trade is flourishing. He is the head of the Revenue & Financial Departments. Every year he brings more & more plots of waste lands under cultivation. He turns ubhadias into farmers by giving them new plots of land with every kind of other help from the State to change their life. The State has under his supervision completed the revenue survey & classification of the lands of Sayla proper & the introduction of civilized Vighoti system is under contemplation, which, it is hoped will be soon introduced.

He is very energetic & considers his duty as a labour of love. He has a very strong sympathy for the dumb deaf blind destitute, the aged the infirm whom he supplies with food grains, clothes and medical assistance in Syala & in the districts since Chhapania famine.

At the energetic efforts of the Heir-apparent about 102 new wells have been dug out at State help in the year under report & still he has in view to increase the number of new wells when the farmers & labourers will be found without work. Also in the last famine he preserved the cattle of his farms at the large expense. The death rate being only 1·75 p· c. He also took great deal of trouble to save the cattle of the poor subjects by admitting them in the Corronation cattle Camp.

# CHAPTER II.

## Administration.

This is a 3rd class State in the Kathiawar Agency. Bhagbatai and in some places Udhad Vighoti are in force.

On account of famine year the State had to give all kind of help to keep up the cultivators in their position. The undersigned is glad to note here that Government of Bombay have appreciated our works in the

matter in G. R. No. 1073 dated 14–2–1913. In that resolution the Government says.:

× + × × × × ×

" The grant of tagavi loans is now a regular feature of the administration " & in the past year, many States in particular Jasdan, Lakhtar and Sayla, " gave most liberal help to the cultivators to enable them to keep their " cattle alive, and to sink new wells for the irrigation of quick growing " fodder charges. It can not be doubted that the adoption of this policy " by the chief has prevented a great loss of cattle. The cost of their famine " administration will, it is feared, weigh heavily on many for some years to " come, but the Governor in council trusts that both States & people will " now enjoy a succession of good years and be able to free themselves from " financial embarrassment ".

Debts:—In the year under report the famine had speard its cruel hands & so, the State was unable to pay the Government & guarrenteed debts. It was very hard for the State to pull on the usual current expenses, but with greatest economy without incurring any new debts or burden on the State the expenses of the State were pulled on but after the last monsoon by the grace of the almighty the famine vanished & in the ensuing official year the interest due upto the end of the year under report of both Government & Guarranteed Loans and their instalments have been paid.

# THE ANNUAL ADMINISTRATION REPORT OF THE SAYLA STATE FOR THE YEAR 1913--14 A. D.

## CHAPTER I.

The area of this State is 221.1 square miles. Population is 12853 according to the last census. The gross income of the state based on average of past five years ) amounts to Rs. 112146-0-1. The tribute to be paid to the British Government amounts to Rs. 15001 in addition to a sum of Rs. 510 to be paid to the Junagadh State as Zortalbi.

The present chief Thakore Saheb Shri Vakhatsinhji Keshrisingji is a Jhala Rajput aged 69. He has been conferred a personal distinction of " Thakore Saheb " by the Government in 1887 A. D. It is a pleasure to note with great satisfaction that in recognition of his excellent administration of the State the Benign British Government has been pleased to confer upon the Thakore Saheb the honoured distinction of Companion of the *Star of India* on the most auspicious occasion of His Most Gracious Imperial Majesty the King Emperor's birthday. It has been settled to present the badge of C. S. I. to the Thakore Saheb at the Levee to be held at Poona in June next.

The Thakore Saheb has now four sons, of whom the eldest Kumar Shri Madarsinghji is the Heir-apparent. The remaining three have been engaged in different services. K. S. Kalliansinghji and K. S. Devisinghji are employed in this State and K. S. Vijaysingji is now a Karbhari to Azam Kanthadwala of Jetpur Bilkha. Also two Kumars of the Heir-apparent K. S. Karansinghji and K. S. Kanaksinghji have finished their studies and joined in the State. The eldest keeps general supervision in the Hazur Court and the younger acts as joint Nyayadhish.

The Thakore Saheb and Kumars have married from Jadejas, Chudasamas, Gohels and Vaghelas, while the Kunvaries (daughters) of the family have been given to Jadejas, Solankees, Sisodias, Rathors and other Rajputs of high renown.

## *EVENTS OF NOTE.*

This state was visited by Colonel Carter the worthy and energetic Political Agent Jhalawar Prant in the month of March 1914 and kept his camp here for three days. He visited the schools, Jail and Dispensary and distributed the prizes to the boys and girls in the School.

I have to note with great regret that Kunvari shri Motaba the eldest daughter of the Thakore Saheb who was married to H. H. the Rao Saheb of Cutch died at Bhuj in the month of Posh (16th January 1914) and consequently all the members of the Raj-Kutumb were deeply involved in sorrow.

## *EDUCATION IN THE CHIEF'S FAMILY.*

K. S. Madarsinhji the eldest son and Heir apparent has studied in the Rajkumar College Rajkot and the other Kumars (cadets) have received their education at Talukdari Girasia School Wadhwan Camp. The eldest son of the Heir apparent has completed his studies in the Rajkumar College Rajkot & his younger brother has studied in the Talukdari Girasia School Wadhwan Camp. Two younger Kumars of the Heir apparent and two other Kumars of K. S. Kaliansinhji and of K. S. Devisihji are studying in the Talukdari Girasia School Wadhwan Camp, and their progress is very satisfactory. Other male and female children of the family who are of very tender age attend the local schools for their regular studies with home tuitions by special teachers under the kind care of the Thakore Saheb who entertains much advanced views regarding education.

## *THE HEIR-APPARENT.*

The Heir-apparent K. S. Madarsingji takes much pains to improve the State and its subjects for which he deserves great credit. He very often goes in circuit in the district and visits the farmers and other subjects of the state and is ever ready to adopt any measure which is conducive to their welfare. He gives them plough and miltch cattle from his own cattle farms and takes keen interest in promoting good breeding of cattle by farmers.

He has also engaged the services of an expert in agriculture Mr. Dupərai C. Anjaria G. M. A. C. and also intends to start irrigation worksby oil engines in Sara and Chorvira.

In Sayla proper, he has opened a ginning factory which gives much work to the poor and labouring classes and the cotton trade of this place is flourishing. He is the head of the revenue and financial departments. Every year he brings more and more plots of waste land under cultivation. He turns Ubhadias (labourers) into farmers by giving them new plots of land with every kind of other help from the state to change their lives. This year 1248 acres of land have been newly brought under cultivation.

He is very energetic and considers his duty as a labour of love. He has very strong sympathy for the dumb, deaf, blind, destitute, the aged and the infirm whom he supplies food, grain, clothes and medical assistance in Sayla and in the districts since Chhapania famine.

The Thakore Saheb and Kumars have inter-married with Jadejas, Chudasmas, Gohels, and Vaghelas while the Kunwaries (daughters) of the family have been given to Jadejas, Solankies, Sisodias, Rathors and other Rajputs of high renown.

This state was visited by Mr. Cowie the worthy and energetic Political Agent, Jhalawar Prant in the month of November 1914 and kept his Camp here for three days. He visited the School, Jail and Dispensary and distributed prizes to the boys and girls of the school in the presence of the Thakore Saheb and the Heir-apparent.

Also Mr. L. Graham, Judicial Assistant to the Agent to the Governor Kathiawar visited Sayla in the month of January 1915 and stayed here for one day only.

I have to note with great regret that Kumar Shri Mansinghji who was studying in Wadhwan T. G. School and K. S. Mangalsinghji who was studying in Sayla Taluka School accompanied their father K. S. Madarsinghji the Heir-apparent on a tour in Upper India in last September and while they arrived at Datia, K. S. Mansinghji and K. S. Mangalsinghji both were attacked with cholera and they both departed for ever from this world on the same day (viz 7th September 1914). This sad event has cast a deep gloom in all the members of the Raj-kutumb.

The Thakore Saheb with the Heir-apparent visited Poona and Bombay in June last. Also the Thakore Saheb accompanied by the Heir-apparent visited Chorvira and Sara Mahals during the year under report to look after the condition of the cultivators and to redress their grievences if they had any.

## CHAPTER II.

**Administration of the Land.**—This department is under the immediate charge of the Heir-apparent Kumar Shri Madarsinghji who is well versed in revenue business and takes keen interest in all its details. He is very fond of plough as well as miltch cattle. He tries his best to

make the subjects to earn their livelihood and this proves that he has deep feelings and sympathy for the welfare of the subjects. He knows very well the merits and demerits of the cattle and can appreciate good breeding, K. S. Kalliansinghji who acts as Revenue Karbhari, gives the Heir-apparent due assistance in the discharge of his duties. Bhag-batai system of collecting revenue is in vogue in this state. In some villages Udhad Vighoti system is in force. The cultivators are satisfied with Bhag batai system. The soil is black, brown and reddish, in some parts sandy and stony also. As the cultivators are supplied with bullocks on moderate terms nearly 47 Santis of waste land has been taken up for cultivation this year in the whole state and prompt measures have been adopted to sink wells in the coming year.

Particular attention is paid by K. S. Madarsinghji to irrigation. He has started an oil engine in Sara Mahal for irrigating purposes, and also engaged the services of Mr. Duleray C. Anjaria G. M. A. C. in Sara Mahal, who is expert in agricultural works. As the cultivated area is subject to the loss of fine soil by rain wash special orders have been issued to all the Vahivatdars to construct Bundh for the prevention of this wash wherever necessary and State has promised cultivators to give them due help in the matter.

# CHAPTER III.

## PROTECTION.

**Legislation.**—The List of laws in force in this state is as shown in Appendix II. This state is entitled to make its own laws. It exercises this power in many instances, while in others it has adopted the British Laws with various modifications suitable to the local exigencies of the state. When necessary it also follows the spirit of the British Laws.

**Military Force.**—This state does not possess military force.

**Police.**—For Police purposes this State has been divided into two circles. Each circle has a Fouzdar having full powers of police for investigating into the cognizable offences. They have as their head a Superintendent of Police. The head of all these is a General Police Officer which post is held by Kumar Shri Devisinghji who is well devoted to the duties of the responsible post he holds. The offences occuring in the town of Sayla are investigated by the Superintendent of Police. The work of preservation of peace and of the detection of crimes is carried out quite satisfactorily and K. S. Devisinghji deserves credit for thes ame.

**Force,**—The total police force consists of 6 mounted police, 18 foot police and 4 Camel Swars. In addition to this there are 210 Pasaitas. The mounted police are armed with rifles and swords. The foot police with muskets and bayonets and the village police with swords and country guns. The total cost on this head is Rs. 5,5,67–8–2 as shown in Appendix IV. The ratio of police to population is 53·5 and ratio of police to area is ·9. The cost does not include the expense of the Pasaitas as they hold land on service tenure.

Appendix V shows that 18 offences were reported to the police as against 21 in the last year. The number of accused arrested was 16 and 16 were sent tor trial out of which 10 accused persons were convicted and 2 were committed to the Court of Sessions of the Agent to the Governor Kathiawar and 4 acquitted.

Appendix VI shows that the value of property stolen amounted to Rs. 348–0–6 of which property worth Rs. 25–8–6 was recovered which gives a percentage of 7·3.

(1) Hazur court presided over by the Thakore Saheb exercises the jurisdiction of the first and second appellate court and the powers of the High Court and Local Government in all matters.

(2) The Kamdar's court presided by judicial Kamdar exercises. all the powers enjoyed by a third class State and hears appeals against the decisions of the first and second class Magistrates' courts.

(3) The first class Magistrate's court Sayla presided over by the Nyayadhish exercises all the powers of the first class Magistrate together with the powers of committing Magistrate.

(4) The second class Magistrate's court Sara presided over by a Thandar exercising all the powers of a second class Magistrate.

Appendix VIII shows that 73 offences were reported during the year under report. The number of persons dealt with amounted to 78. Out of which 39 persons were discharged, 3 acquitted, 31 convicted, 2 committed to the Court of Sessions of Kathiawar Political Agency, 1 died and 2 persons remaining at the end of the year.

Appendix IX shows that the number of applications filed against the decisions passed by the Criminal courts amounted to 5. Of these the sentences in four appeals against 11 persons were modified and sentences in one appeal against 2 persons were reversed and none is pending.

## Civil Justice.

(1) The Hazur Court enjoys the powers of the Appellate court and of the High Court.

(2) Kamdar's Court has the power to hear original suits beyond the jurisdiction of the Nyayadhish and of the appellate Court in the matter decided by the Nyayadhish and the Thandar.

(3) Sayla Nyayadhish's Court has the power to hear original suits upto Rs. 3000 only and the Small Causes' Court's powers upto Rs. 100 for Sayla proper.

(4) Sara Thandar's Court has the power to hear original suits in Sara Mahal upto Rs. 500 only.

Appendix X shows the nature and value of original suits filed and disposed of in various courts of Sayla State during the year under report.

Appendix XI shows the results of applications for execution of decrees in the Sayla State during the year under report.

Appendix XII shows the opening balance of appeals in the Civil Court and the appeals filed and disposed of during the year under report.

**Extradition**—Out side demand on this State was 5 which all were complied with. The demand by this State amounted to 3. There is some want of reciprocity on the part of some one of the neighbouring states in this respect.

**Prisons**—There are two prisons in this State, one in Sayla and the other in Sara. The jail in Sayla is the central jail because Sara can keep only prisoners for one month. The prisoners who have to undergo longer

terms of imprisonment are brought to Sayla. The Nyayadhish is ex-officio the jail superintendent.

Appendix XIII shows that in the beginning of the year there were 11 prisoners in the jail and 22 were admitted during the year under report. Out of these 10 remained at the end of the year. The total expense of the Jails is Rs. 353-15-11 and the daily average is 11·3.

The general health of the prisoners was very good and there was no mortality among convicts in Jail.

**Registration.**—Appendix XIV shows the registration of documents in Sayla State. The number of documents presented for registration amounted to 8 of the aggregate value of Rs. 2,685-0-0 which all were registered.

Appendix XV shows the receipts and expenditure on account of registration during the year under report. This year the fees realized amounted to Rs. 35 against Rs. 44 last year. This work is done by the Hazur court so the extra expenditure is not done on this head.

# CHAPTER IV.

(*a*) **Weather and Crops.**—The total rain fall during the year under report was 22 Inches, 70 cents as shown in appendix XVII compared with 17 Inches, 93 cents in the previous year. Of this 1 Inch and 32 cents fell in the fair season. The Agtar (early) crops turned out 10 annas and the Pachhetar (later) crops turned out 12 annas.

(*b*) The condition of the labouring classes is fast improving. There is great demand for unskilled labour. Labourers are very dear for ordinary work too. Appendix XVIII shows the prices of food grains which shows that the prices of Bajri and Juwari are nearly the same as those of the last year but the wheat are dear.

(*c*) **Forest.**—There is no forest in this state of any great importance. Babul tree plantations are being sown but the growth is not thriving. The land and climate not being genial, they are not properly grown up. However there are big grass vids in the State which besides supplying the want of grass to the State give an extra revenue also. The vid of Chorvira is very extensive and the poor people earn their livelihood by selling the gum which is being produced from it. There is a lake called Chandrelia, under Chorvira where poor people dig out bid from the ground and live upon it when necessary in the time of scarcity.

(*d*) **Trade and manufacture.**—The chief articles of export are cotton and Til (sessamum). The former is exported to Wadhwan Camp, Bhavnagar, Ahmedabad and Bombay and the latter to different parts of the Province. Cloth, rice, sugar etc. are the Articles of import from Bombay. Sarasia oil is imported from Gujarat. While cocoa-nut, Betle-nut etc are imported from Dholera and Bhavnagar. Cloth of Khadi is manufactured by local weavers of Sayla and there are nearly 100 hand looms in working order in Sayla. Khadi cloth is dyed in a very good way by the dyers here together with other cloth made of cotton. Excellent wood work lathe-turned and simple such as Boxes, Pataras, and various other articles of nice workmanship are made in Sayla and exported. There are several quarries in the State from which stones for building purposes are dug out and sent to Wadhwan Civil Station and Gujarat. The stones of Chorvira quarry are the best ones and there is great demand for these stones in Gujarat. The Morvi Railway authorities are requested to build a side way near Vagadia along the Morvi Railway Line which if carried out the said quarry will be greatly developed and the Morvi-Railway will get good traffic.

(*e*) **Public Works.**—The portion of the trunk road lying within the limits of this State and the made roads between Sayla and Muli upto the boundary of this State and between Sayla and new garden and also the public buildings in Sayla are kept in repairs and expense on this head amounted to Rs. 1,064–11–2 this year as shown in Appendix XIX.

(*f*) **Post Office.**—There is one Post Office with combined Telegraph Office in Sayla. There is one Post Office in Sara too-

(*g*) This State has no mint of its own.

(*h*) **General condition of State and people.**—The condition of the State is improving. The same may be said as regards the condition of the Bhayats and mulgirassias. The condition of the merchants and traders such as money lenders, cotton and cloth merchants and dealers in grains is progressing along with that of the other subjects. The condition of the cultivating classes is also taking a better turn.

Public health was very good throughout the year under report. There was no appearance of any kind of epidemic in Sayla.

Appendix XX will show the number of agricultural stock of this State

for the year under report. Rinder pest amongst cattle was prevalent in the most part ot the year but as it was in mild form, it did not produce great effect.

In Sayla proper K. S. Madarsinghji the Heir-apparent has opened a Ginning factory which gives much work to the poor and labouring classes and the cotton trade of this State is flourshing.

The number of excise shops is the same as that ot the last year as shown in Appendix XXI. The revenue from these shops is less than that of the last year.

# CHAPTER V.

## Revenue and Finance.

The total receipts for the year under report amounted to Rs. 1,33,477–3–2 as against Rs. 1,40,930–2–5 of the last year.

Thus showing a decrease of Rs. 7,452–15–3. The cause of decrease being the decline of cotton rates. The decrease is chiefly in the land revenue, Mandvi and Bham and such other items.

The instalments fixed for repaying the Government Loan is Rs. 7,523, Guaranteed debt Rs. 11,117 and the Local Fund Loan is Rs. 1,360. In all Rs. 20,000. Which this State paid in full and punctually. Besides this, this State paid Rs. 5,010–12–4 for interest on late payments of Government Tribute of the preceeding bad years. Some part of the above said interest is on the remitted amount of Peshkashi for the years 1899–1900 and 1901–02. The question of refund of this has been referred to Government but no final order has been received as yet.

# CHAPTER VI.

## Vital statistics etc.

There is one charitable Dispensary in Sayla called "the Vakhatsinghji Dispensary." It is under the charge of Mr. Chunilal Nanalal Desai sub-assistant Surgeon since July 1912. He performs his duties to our satisfaction and also the people are satisfied with him. The supply of medicine is adequate and the staff well equipped. In the year under report 3,180 out door and 3 in door patients were treated, as shown in Appendix XXIII. The daily average was 65·3 and the total expenditure Rs. 1,194–15–7.

The public health remained good throughout the year. This State was quite free from the most dreaded epidemic of plague.

Appendix XXIV shows the number of births 401 and that of deaths 160 this year as againzt 301 blrths and 218 deaths last year. Thus the ratio of births is 31·19 as against 23·41 last year and that of the deaths is 12·44 as against 16·96. The police are strictly ordered to keep accurate register of births and deaths. No extra expenditure is done on this head.

## CHAPTER VII.

The number of schools in this State is as follows:—viz. four boys' schools and one girls' school as shown in Appendix XX. In these schools 289 boys and 61 girls receive their education. The instruction is imparted to them upto the VII standard. The total cost on this head is Rs. 1,927–15–4. The Thakore Saheb and the Heir-apparent visit the school occasionally and distribute sweetmeats to the boys and girls as an encouragement.

It is a matter of great satisfaction to note here that K. S. Madarsinghji the Heir-apparent has opened a Sanskrit school in Sayla as an encouragement to the Brahmin boys wherein they learn Sanskrit. The Master in charge of the school is a Brahmin of this place who is well-versed in Sanskrit.

## CHAPTER VIII.

The present war in Europe has produced very disastrous effect on the trade of this State also. The rates of cotton are greatly decreased which is detrimental to the interests of the cultivators as well as to the interests of all concerned. This state paid handsome sum to the Imperial War Relief Fund. Also this State has paid its quota to the Motor ambulance to be presented to His Imperial Majesty the King Emperor by the chiefs of Kathiawar. Each and every soul of this State heartily and fervently wish the speedy success of the benign British Government in the present War.

The conservancy establishment of Sayla consists of one Karkun and a peon and the work is done by the local paid Bhangis. Expense on this is head Rs. 286–4–0.

There are two best Kathy stallions in Lala Bhagat's place (Institution). The mares from this State and from the Districts are covered by these Kathy stallions.

Members of the Sayla Raj Kutumb have natural liking for horse

flourish in which they understand and take lively interest to improve the breed whenever practicable.

## Conclusion.

It is with pleasure and satisfaction the undersigned has to note that during the year under report all officers of the State high and low have performed their duties with zeal and assiduity.
